TABE 11&12 LOCAL SCANNING INFORMATION

TABE SCANNING FUNCTIONALITY

With a compatible scanner, using the DRC Portal you can scan TABE paper-pencil answer documents and then view On-Demand score reports in the Portal shortly after scanning.

SCANNER & ATTACHED COMPUTER REQUIREMENTS

To properly scan TABE answer documents, the scanner must:

- Be a “duplex” scanner that scans both sides of a page in one pass
- Have automatic document feeder
- Be compatible with the computer and OS you will use to access the Portal for TABE local scanning

To properly scan TABE answer documents, the computer attached to the scanner must:

- Have the scanner’s required drivers installed and tested.
- Have the TWAIN plug-in installed and tested. **NOTE:** The first time you use TABE Local Scanning in the Portal, the Portal checks for this plug-in and will display an install option if the software is not found.
